EDUCATION

Bachelor in Computer Science
Lahore Garrison University
2022-2026

PROFILE

As a passionate and curious web developer, I enjoy turning ideas into user friendly digital experiences. With a strong foundation in the MERN stack and hands on experience building real world projects, I'm always looking for opportunities to learn, grow, and contribute to meaningful work. I value clean code, good design, and team collaboration and I'm excited to keep evolving in the fast paced world of tech.

WORK EXPERIENCE

Computer Lecturer 2023 - PRESENT
Study Connections Academy

- As a dedicated Computer Lecturer at the Metric and Intermediate levels, I am responsible for delivering comprehensive and engaging computer science education to students in grades 9 through 12. My role encompassed curriculum development, classroom instruction, and student assessment, ensuring a high standard of education in line with the institution's goals.

PROJECTS

AI Assignment Generator

- Tech Stack: React.js, Tailwind CSS, Firebase, Gemini API
- Built a responsive AI powered assignment generator web app.
 - Used Gemini API to dynamically generate academic content based on user input.
 - Implemented Firebase Authentication and Firestore for user login and data storage.
 - Crafted an intuitive UI using Tailwind CSS and React components.

Trendy – eCommerce App

- Tech Stack: React, React Router, Context API, Firebase
- Built a full stack clothing and accessories eCommerce web app.
 - Features include product browsing, shopping cart, checkout, and admin dashboard for product management.
 - Integrated Firebase for database and user authentication.
